

# OCEAN POOLS | DAY WORKSHOP

## CONSERVATION AND MANAGEMENT

BEST PRACTICE MANAGEMENT AND CONSERVATION OF OCEAN POOLS

Friday 2nd Decemeber 2022 - 10am

Sharing best practices and lessons learnt. This round table brings together expert knowledge and practise-based experiences on the management, conservation and stewardship of ocean and harbour pools.

### Coastal Infrastructure Assets

Ocean pools have a rich history in Australia and continue to be a focal points within our local coastal communities. Approximately 60 ocean pools remain in use today in NSW, each overseen, conserved and maintained by councils or communities up and down the coast. As assets they can be fragile and complex to manage. They are challenged by storm events and are susceptible to the effects of sea level rise. However they are also iconic and well loved by local communities who advocate for the conservation of these structures.

### Conservation and Management

The preponderance of ocean pools in NSW has furnished councils and asset managers with extensive knowledge on caring for and maintaining these unique assets. As our ocean pools approach the end of their structural design life this initiative looks to bring together knowledge on restoring, maintaining and future-proofing these iconic assets.

The workshop will provide an overview of knowledge and experiences from stakeholders working on ocean pools in NSW to discuss best practices in asset management and conservation.

### Knowledge Sharing | Workshop

Workshop outcomes include sharing practice-based knowledge and experiences across a wide range of challenges associated with ocean pools. Topics will focus on critical issues which are commonly encountered ranging from technical to strategic, to funding and all topics in between. Following the workshop, strategies and case studies discussed will be collated and circulated to attendees. The event is intended to connect stakeholders for ocean pools throughout NSW, Australia and internationally and provide an opportunity for ongoing knowledge sharing with industry experts.

### Further Information and Details

The round table will be chaired by James Carley, Principal Coastal Engineer with UNSW Water Research Lab. The event is organised by Nicole Larkin, a Sydney-based architect whose practice focuses on ocean pools in NSW.

<b>Date</b>	Friday 2nd December
<b>Time</b>	10am - 5pm
<b>Venue</b>	Wylies Baths, Coogee
<b>Cost</b>	\$80.00
<b>Other</b>	Lunch provided

**Workshop drinks will be held for attendees from 5pm**

# OCEAN POOLS | DAY WORKSHOP

## CONSERVATION AND MANAGEMENT

BEST PRACTICE OCEAN POOL MANAGEMENT

Friday 2nd Decemeber 2022 - 10am

### ICCE Conference | 2022

This workshop is held in conjunction with the 2022 International Conference on Coastal Engineering. ICCE is the premier international coastal engineering conference held biennially under the auspices of the Coastal Engineering Research Council. ICCE promotes technical exchange on coastal related studies. In 2022 the conference will be hosted from 4th – 9th December at the International Convention Centre, Sydney.

### Program | Day Workshop

#### Session 01

10.00 - 10.15 AM Opening Introduction  
10.15 - 11.15 AM Technical Session 01

#### Session 02

11.15 - 11.45 AM Morning Tea Break  
11.45 - 12.30 PM Technical Session 02  
12.30 - 1.30 PM Lunch Break

#### Session 03

1.30 - 2.30 PM Pool-side Case Study  
2.30 - 3.30 PM Technical Session 03  
3.30 - 4.00 PM Afternoon Tea Break

#### Session 04

4.00 - 4.45 PM Technical Session 04  
4.45 - 5.00 PM Closing Presentation

#### Post - Workshop

5.00 - Onwards Social Function

### Venue | Wylie's Baths Coogee

Wylie's Baths is one of Sydney's most unique and iconic ocean pools. It is located just a few hundred metres south of Coogee Beach in Sydney's eastern suburbs. The Baths has a sweeping 180 degree view of the Pacific Ocean and is a perfect setting to take in Sydney's coastline. The Baths are heritage listed under the NSW National Trust and boasts a unique elevated timber deck over the ocean pool below.

### Driving

Wylies Baths is located on the coast 15 minutes south-east of the Sydney CBD. Free on-street parking can be found nearby on Neptune Street.

### Public Transport

Coogee is serviced by a number of bus routes. To download a Sydney Buses service map, click here. Or visit the [NSW Transport Infoline](#) to plan your trip.
